

## SUPERIOR DESIGN OUTSTANDING INNOVATION

### LPU 67

This energy-saving door impresses thanks to 67-mm-thick sections with thermal break achieving excellent thermal insulation.

### LPU 42

This option has 42-mm-thick sections that achieves good thermal insulation.

### EXCLUSIVE INTERIOR DOOR VIEW

A non-brittle, 4 cm plastic frame shoe covers the frame where it is prone to rusting and offers long-term protection against corrosion, even with waterlogging, which is unmatched by competitor solutions.

### EXCLUSIVE INTERIOR DOOR VIEW

Tracks and connection rails and all fittings are available in Grey white RAL 9002, matching the inside of the door leaf. This creates an exclusive internal view, available on the LPU 67.

S-ribbed (LPU 42, LTE 42), Traffic white RAL 9016

M-ribbed (LPU 67 Thermo, LPU 42, LTE 42), Traffic white RAL 9016

L-ribbed (LPU 67 Thermo, LPU 42), Traffic white RAL 9016

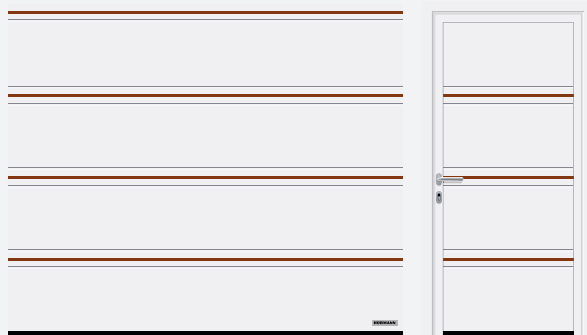

D-ribbed (LPU 42), Traffic white RAL 9016

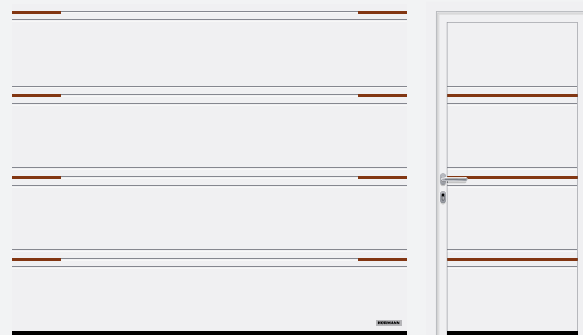

Panelled (LPU 42, LTE 42), Traffic white RAL 9016

T-ribbed (LPU 42), Traffic white RAL 9016

T-ribbed (LPU 42 ) style 501 with continuous inlays in stainless steel or timber look (Fig.), or RAL to choose, Traffic white RAL 9016

T-ribbed (LPU 42 ) style 500 with divided inlays in stainless steel or timber look (Fig.), Traffic white RAL 9016

## SPECIAL ACCENT WITH INLAYS

T-ribbed doors are available in two inlay versions: continuous inlays run along the whole door width, while divided inlays, each 435 mm wide, are positioned on the left and right edges of the door. The inlays are available in stainless steel or timber look as well as RAL to choose.

## Residential Sectional Garage Door

*Wicket door with  
trip-free threshold*

### *Features*

A wicket door in the garage door lets you easily access whatever you need from your garage, for example gardening tools, bikes or wheelbarrows. Only Hörmann offers wicket doors with a stainless steel threshold that is only 10 mm in the centre and 5 mm at the sides. This reduces the risk of tripping and makes it easier to wheel things through.

The aluminium door frame is anodised as standard in a natural finish and is also available in all RAL colours. The top garage door section comes with a continuous lintel seal, also in the wicket door area.

Doors with wicket door are available with a door width of up to 5 m.

## AN EASY PASSAGE INTO YOUR GARAGE

### CONCEALED HINGES

For a uniform door appearance, the wicket doors are equipped with concealed hinges as standard.

### OVERHEAD DOOR CLOSERS

As standard, wicket doors are supplied with slide rail door closers incl. integrated opening angle limit and hold-open device (top Fig.). An integrated door closer, including hold-open device (bottom Fig.) is optionally available for optimum protection and the best appearance.

### OPTIONAL MULTIPLE-POINT LOCKING

The wicket door is locked over the entire door height with one bolt and hook bolt per section. The advantage: better stability and improved break-in resistance.

### ROBUST DOOR CATCH

This prevents door leaf dropping and warping.

**NOTE:** 1. Wicket doors with trip-free threshold are only available for sectional door LPU 42.

2. On request, Decograin wicket doors can be supplied with the frame painted to match the colour of the decorative finish. The frame is available in all RAL colours, also different from door colour.

3. In some cases, adjacent panelled doors with the same width, with and without a wicket door, may not have an identical panel division.

4. Manually operated garage doors with wicket door do not have an exterior door handle. They are locked from the inside.

Your perfect garage door may be elegant, bold or perhaps just harmonise with its environment. Every 4D product is designed to help your home make a unique statement that reflects your individual style. Of course, the engineering is crucial as well and that is why 4D doors are manufactured with an uncompromising focus on safety, strength and innovation. We are here to provide solutions for every requirement.

## CONTEMPORARY THINKING TIMELESS STYLE

### WOODGRAIN

L-ribbed / M-ribbed  
S-ribbed / Panelled

This classic and traditional profile consists of an authentic sawn timber textured finish to the face of the door. Available in a broad range of colours, this versatile design is sure to compliment your home.

### SILKGRAIN

L-ribbed / M-ribbed  
D-ribbed / T-ribbed

Thanks to its elegant door appearance, the fine smooth Silkgrain surface finish is the first choice for modern architecture. A 50 % thicker exterior steel sheet on the panels delivers stability and a true flat and smooth finish.

#### Final coating\*

Increase of weather protection and prevention of chalking.  
No increase of corrosion protection in the area of cutting edges.

#### Final coating\* "Anti-graffiti":

Simple removal of graffiti by using Graffitix from the manufacturer Matecra.  
Available from specialised retailers.

Increase of weather protection and prevention of chalking.  
No increase of corrosion protection in the area of cutting edges.
