

Pre-Installation Checklist

Rolling Doors

Thank you for choosing to install your garage door and/or opener with us.

To ensure the safety of your family and property, and our installer, we ask that on the day of installation, the following criteria be addressed:

DEALER DETAILS

- ✓ We require everyone to stay clear of the garage and driveway area during the installation process.
- ✓ We require that there is **NO RUBBISH** or debris around the work area, and that any items stored in the garage area, be moved away from the door. (See the diagram above, showing the areas that need to be clear)
- ✓ We require that there are **NO TRUCKS** or other vehicles, including boats or trailers, in the driveway on the day of installation.
- ✓ We require that there be no other tradespersons using the garage at the time of installation.
- ✓ We require that there be no animals on site at time of installation.
- ✓ **ALL DOGS** must be **RESTRAINED** and clear of the work area on day of installation.
- ✓ If you are having an opener installed, please ensure a power point has been installed in the correct location (see diagram above for reference).
